### A Service for Exporters

These Trade Commissioners will make direct inquiries, or conduct preliminary surveys for any Canadian producer or manufacturer regarding the opportunities for selling his product. They will report the kind of goods wanted, the best methods of packing, shipping and billing, and provide valuable and reliable information on business conditions generally. They will place any Canadian, seriously interested in export, in touch with progressive local representatives, or introduce his salesmen to established trade houses. They will assist in maintaining business contacts.

CANADA now has 32 Trade Commissioners' offices located in the world's greatest business centres.

The sole duty of these offices is to assist in the development of Canadian export trade.

The Trade Commissioners, each one a specially trained Canadian, living among the buyers of other countries, search out new markets for Canada's products or seek to widen existing markets.

They are this country's business scouts abroad.

## A World View of Business

The latest trade developments the world over, are constantly reported by these Commissioners to the Commercial Intelligence Service at Ottawa. This information is at the command of any Canadian. Letters of inquiry on any phase of export trade are welcomed.

This export trade service has been expanded and reorganized during the past year. Six new trade Commissioners' offices have been opened in Panama, Greece, Peru, Norway, United States and Hong Kong.

While the story of Canada's increasing export trade constitutes a business record in which every Canadian can take pride, still more can be accomplished. Greater markets for Canadian products exist. The producers and manufacturers of this country have the resources and the skill to compete successfully across the seven seas. At the same time more active participation in export trade will stabilize employment at home, and lower production costs. The continuation of Canada's prosperity is linked with a trade beyond our boundaries. Let us help you to gain your share of this profitable business.
